

Year 9 IXL – Feb/Mar 2021 schedule

Please find below the schedule for the next few weeks for IXL.

You will still be aiming to complete a minimum of 60 minutes or 2 units of work per week.

It is an excellent way of revising and going over topics you have recently learnt in class so you are encouraged to do more modules for practice, particularly during 'Lockdown'

Your Maths teacher will be able to check the work is completed each week.

It will say in brackets in which year the module can be found ie (year7)

Week beginning 22-2-21

Z.1 - Is it a polygon? (year 6)

Z.2 - Number of sides in polygons (year 6)

Z.3 - Regular and irregular polygons (year 6)

Week beginning 1-3-21

CC.4 - Area of triangles (year 6)

S.1 - Objects on a coordinate plane (year 6) [revision from yr 8]

Week beginning 8-3-21

CC.5 - Area of compound figures (year 6) [just one this week however you will need to use pencil paper and calculator for working out]

Week beginning 15-3-21

X.11 - Add and subtract like terms (year 7)

K.1 - Fractions of whole numbers I (year 7) [revision]

Week beginning 22-3-21

X.12 - Identify equivalent expressions (year 7)

R.10 - Multiply using the distributive property (year 8)

Week beginning 28-3-21

R.3 - Evaluate linear expressions (year8)

I.2 - Evaluate exponents (year8) [revision]
